T & T Tested SEEDS

Dear Friend:

If you planted a T & T garden last year you know T & T varieties are earliest and best—and are priced to give you the most for your money.

If T & T seeds are new to you, here's our policy: It's to spend less on fancy catalogues and printing, and to spend more on breeding, selecting and bringing you a constant supply of earlier, better, bigger yielding varieties for Northern gardens.

Every year thousands of Northern gardeners are changing to T & T for these exclusive selections.

T & T MISSING LETTER CONTEST

FIRST PRIZE **\$100.00** 37 OTHER CASH PRIZES

See List of 1952 Winners on Page 33

You can win \$100.00 in the T & T Missing Letter Contest—by finding the missing letters from the Veg. Star Items contained in this catalogue. These missing letters, when placed in the order they appear in the Digest, form a message about T & T Seeds. Star Items should be taken left to right on each page. When you have found all the missing letters—write the sentence they form on the entry blank below, and mail to the address given. If you include a seed order, the prize money you can win will be doubled or trebled—according to the size of your order.

NOTE—Not every Star Item contains a missing letter.

PRIZES IN 3 DIVISIONS

	Division 1	Division 2	Division 3
	with entry only	with entry and order of	with entry and order of
Prizes		\$2.51-\$4.00	\$4.01 up
1st.....	\$15.00	\$25.00	\$100.00
2nd.....	10.00	15.00	50.00
3rd.....	5.00	10.00	25.00
4th-37th.....	1.00	2.50	5.00

Prizes will be awarded as above to the writers of the first 37 correct entries drawn from all that are received.

REMEMBER—THE BIGGER YOUR SEED ORDER THE BIGGER THE PRIZE YOU CAN WIN.

Closing date of the contest will be June 30th. Winners to be announced in the Prairie Farmer classified seed column before July 31st.

IN ALL CASES, JUDGES' DECISION WILL BE FINAL. No correspondence can be entered into and proof of posting cannot be accepted as proof of delivery.

This contest will be judged by:

W. C. Turner of Prairie Farmer Weekly.

A. C. Goudie of Stewart-Bowman-Macpherson Advertising Ltd.

MISSING LETTER CONTEST ENTRY FORM

T & T SEEDS, GRAND FORKS, N. DAK. I have all the Missing Letters in the Star Items in the T & T Catalogue for 1953 and believe the correct sentence they form to read as follows:

.....

I enclose an order for \$....., and agree to accept the judges' decision as final in the selection of winners in the Missing Letter Contest.

T & T CHEMICALS

are **FIRST** with the **Progressive Farmer**

T & T is the world's largest distributor of 2-4 Dusts for Weed Control.

T & T developed the New Minor Element Dusts to Leaf Feed the growing crop while killing weeds.

T & T Dusting Machines are first and finest.

T & T Pioneered Mergama C, the best Seed Treatment for Wireworm Control.

Write today for Free Colored Literature on the above and Developments in Modern Farming.

Here's Mrs. Adam Molick, Buhl, Minn., winner of 1952 Bush Beefsteak tomato contest, with some of the canned product of her garden. One of her tomatoes weighed 2 lbs. 4 ozs.

THE BIGGEST SUCCESS STORY IN NORTHERN GARDENING!

T & T Early Bush Beefsteak Tomato
turned in an outstanding performance last season. (see letters on Order Form).

It's the culmination of years of intensive breeding and selecting for Northern gardens. But it serves to attract attention to the long list of new early improved varieties introduced by T & T specialists.

The result: Your T & T garden will be the first and finest in the district.

Again as a result of our policy to spend more on breeding and developing—we offer 15 new Tested Northern Vegetable Improvements for 1953.

BEANS—Contender and Wade.

B. SPROUTS—Catskill. **CELERY**, Emerson Pascal.

CUKES—Green Thumb and Highmoor.

LETTUCE—Salad Bowl and Progress.

PEA—Arctic Sweet.

SPINACH—America. **TURNIP**—Altasweet.

ONION—Spanish 49.

TOMATO—Cavalier; Stokesdale No. 4; Carleton.

COMPARISON T&T GIVES MORE SEED PROVES ... FOR LESS MONEY!

These 25 Pkts. From T & T
Cost \$1.47.

1 Asparagus	1 Muskmelon
1 Bean	1 Watermelon
1 Beet	1 Onion
1 Swiss Chard	1 Parsnip
2 Cabbage	1 Pea
1 Carrot	1 Radish
1 Cauliflower	1 Spinach
2 Corn	1 Squash
2 Cuke	2 Tomato
2 Lettuce	1 Turnip

T & T Prints Veg. Pkt. Weights
Because T & T Pkts. Are Heavier

In a survey conducted last Spring. We purchased a pkt. each of 25 standard vegetables or the nearest substitute (as listed on left) from 4 of the big Seed Houses.

The Survey Showed

There was 26% more seed in the T & T pkts. when they were all individually weighed and compared.

THE 25 PKTS. FROM THE OTHER
4 COST AN AVERAGE OF \$1.97.

Buy T&T TESTED SEED with Confidence— 26% More Seed in T&T Packets!

Northern Gardens Depend on T & T.

T & T is the only Seed House to print vegetable packet weights. We do this to assure value and fair play. In spite of rising costs T & T packets are still the giant oversize you've always received.

T & T SEED SOLD DIRECT TO YOU—NOT SOLD IN STORES. We sell direct and pass the savings on to you. Save money—No middleman's profits.

NOT SOLD IN COMMISSION BOXES—T & T seed is fresh crop, dated—tested. Usually 45% of commission box seed is returned in the Spring. We couldn't accept 45% seed returns and continue to give the oversize packets at the savings listed in this catalogue.

THE SWING IS TO T & T!

We nailed our colors to the mast 7 years ago when we started T & T and your generous response shows we are on the right track.

4 WAYS BETTER:

- T & T Seed is Northern Improved. Bred here in the North it is the best seed science can produce.
- T & T Seed is new crop, dated, tested for purity and vigor.
- T & T Packets are really generous oversize.
- The T & T Seed Digest contains only the earliest, most outstanding varieties.

NEW T & T SEED PACKAGE

To keep our printing costs down so we can hold our oversize seed weights, we've designed a new seed packet, slightly smaller, to use less paper and printing. So to greet you in '53, Terry is on the flower packets and Tommy is on the vegetables.

STARS

QUANTITY

Council of Experts recommend varieties marked with a large star.

These are their choices of the best proven varieties for Northern Conditions. T & T Plant Breeders have covered the outstanding Government

Authorities and Leading Gardeners in the Northern U.S.A. and Canada, to compile a "Council of Experts" list of truly outstanding Northern Varieties. Follow the ★ and be guided by the men who know vegetables best.

ASPARAGUS

Ounce sows 50 ft. of row; 4 to 5 lbs. per acre.

10. Mary Washington

Delicious tender tips assured from this heavy yielding selected strain of this standard variety. Postpaid, oversize pkt. (1/4 oz.) 5c; 1 oz. 17c; 1/4 lb. 49c.

BEANS—Wax Podded

1 lb. sows 100 ft. of row.

50. Golden Brittle Wax—Early

Excellent and popular wax bean. Meaty, stringless, tender, brittle, high quality—Best for canning. Postpaid, oversize pkt. (1 oz.) 6c; 1/4 lb. 19c; 1/2 lb. 29c; 1 lb. 48c.

75. Pencil Pod Black Wax

★ Choice wax bean — Pods round, stringless, full. Heavily yielding wax bean. Postpaid—Oversize pkt. (1 oz.) 6c; 1/4 lb. 19c; 1/2 lb. 29c; 1 lb. 48c.

BEANS—Green Podded

Green beans are higher in vitamins.

77. Contender (New)

★ New release in green beans, topped our test plots. Tidy compact plant. Days earlier than TOP CROP. Excellent quality — does very well under drought. Postpaid—Oversize pkts. (1 oz.) 9c; 1/4 lb. 27c.

78. Top Crop (New)

Deep green color. Outstanding yielder. Top quality. Compact bushy growth, stood up well under drought. Postpaid—Oversize pkts. (1 oz.) 7c; 1/4 lb. 21c; 1/2 lb. 34c; 1 lb. 58c.

80. Wade (New)

1952 Gold Medal Winner All American trials. We want you to tell us if we should feature this next year. (1 oz.) pkt. Postpaid 9c; 1/4 lb. 27c 1 lb. 58c.

90. Stringless Green Pod

Old favorite, rich green pod color. Stringless and tender. Yields bumper crops if kept picked. Prices same as Pencil Pod.

BEANS—Lima

100. Early Baby Potato

★ Earliest Lima. Beans lively green color. Delicious, distinctive flavor, boiled green or baked. Grows 20" tall, loaded with pods. Healthiest bean in garden. Postpaid, oversize pkt. (1 oz.) 7c; 1/4 lb. 22c; 1/2 lb. 32c; 1 lb. 54c.

BEANS—Pole

105. Blue Lake

★ Outstanding advance; 7 in. pods flavor like Tendergreen. Grows 6' tall. Staked, gives amazingly heavy yield in small space. Early strain. Oversize pkt. (1 oz.) 7c; 1/4 lb. 22c; 1/2 lb. 32c; 1 lb. 54c.

130. Scarlet Runner

Best as ornamental; bright red flowers. Easy, quick grower to 14'. Excellent eating qualities. Postpaid, oversize pkt. (1 oz.) 7c; 1/4 lb. 22c; 1/2 lb. 32c; 1 lb. 54c.

BEANS—Broad

140. Broad Windsor

★ Earliest available. Large, meaty beans. Delicious when cooked green. Grows 2-3' tall. Postpaid, oversize pkt. (1 oz.) 7c; 1/4 lb. 22c; 1/2 lb. 32c; 1 lb. 54c.

BEANS—Baking

160. T&T Early Mammoth

T & T experts developed this mammoth white seeded variety for even more delicious home baked beans. Beans are 53% bigger than Idaho 123, (one of the largest). Earlier in maturity, heaviest yielder, it promises to replace all other baking beans in Northwest. Postpaid, oversize pkt. (1 oz.) 7c; 1/4 lb. 22c; 1/2 lb. 32c.

165. Michilite

Has proven best standard baker in North. Good yield, healthy clean growth, of excellent flavored white beans. Postpaid—Oversize pkt. (1 oz.) 7c; 1/4 lb. 22c; 1/2 lb. 32c 1 lb. 54c.

New Unwin Dahlias

Wonderful Bloomers

I had a packet of Unwins Dahlia seed last year, in mid-July they started blooming. Until late in the fall they were a wonderful sight to behold. Coming home after a holiday it just took my breath away. It was a rare sight, their beauty and different types, size and color, each one had 40 to 50 blooms.

Mrs. F. H., Saltecoats, Sask.

SOY BEANS

191. Early Blackeye (New)

Best and earliest edible Soybean. Developed by T. F. Ritchie, Dominion Experimental Farm, Ottawa. Wonder plant of Orient for high Protein food value. Delicious shelled and cooked green like Lima Beans, or dried for winter baking. Postpaid, oversize packet (1 oz.)

7c; ¼ lb. 22c; ½ lb. 32c; 1 lb. 54c.

BEETS

1 oz. sows 50 feet of row

202. Tall Top Bunching

★ The best beet for early greens. Bred for tender bushy tops. After thinning finished, lovely round solid red beets for canning and pickling. Postpaid oversize pkt. (¼ oz.) 7c; 1 oz. 21c; ¼ lb. 57c; ½ lb. 97c.

205. Short Top Detroit

★ Perfection of flesh, color and flavor of Detroit, refined by skilful breeding to produce small top, narrow necked beet. Beautifully uniform, dainty round beets are tops for canning and pickling. Choice. Postpaid oversize pkt. (¼ oz.) 7c; 1 oz. 21c; ¼ lb. 57c; ½ lb. 97c.

210. Detroit Dark Red

Most popular, all purpose beet, for early garden or storage use, market gardening, shipping and canning. Does well on all types of soil. Deep red flesh, indistinct zones, clean crowns. Flavour best when 2½" across. Postpaid, oversize pkt. (¼ oz.) 5c; 1 oz. 16c; ¼ lb. 48c; ½ lb. 78c; 1 lb. and over \$1.48.

T & T Seed Supreme

Claims Man. User

I had to use seed from the stores and believe me the garden is not as good as last year when I used T & T seeds. It looks like the frost will get it before its ready for the table or canning. I want to thank you for the trial packet of Bush Beefsteak. It's the best tomato I've ever tried.

Mrs. J. Wm. K., Beausejour, Man.

SWISS CHARD

Cut and come again greens. Tops cook like Spinach, stems like Celery or Asparagus. 1 oz. sows 50 ft. of row

250. Giant Lucullus

★ Chard 50 days to mature. Light green foliage with crisp pure white stems. Leaves are crumpled like Bloomsdale spinach. Does not go to seed readily and thus can be used for an extended period. Excellent for home canning. Postpaid oversize pkt. (¼ oz.) 5c; 1 oz. 16c; ¼ lb. 48c; ½ lb. 78c; 1 lb. and over \$1.48.

255. Rhubarb (New)

WONDERFUL FLAVOR

Comes in after beet greens have grown tough and also with a milder flavor. Solid red stem extending to leaf veins. Leaves deep green. Makes an appetizing dish. Plant smaller, more compact than 250. Postpaid oversize pkt. (¼ oz.) 5c; 1 oz. 16c; ¼ lb. 48c.

BROCCOLI

If you like Cauliflower, try this easy grower
Handle like Cabbage or Cauliflower

270. Early Green Sprouting

Earliest and best broccoli for the northern districts. Large heads of deep green, tender sprouts. Cooked like cauliflower though milder flavor. Seasoned with butter and salt—a delicacy that all gardeners should try. Delivered prices—Oversize pkt. (1/16 oz.) 6c; 1 oz. 33c.

BRUSSELS SPROUTS

Tender Buds—Old Country Favorite

290. Catskill (New)

★ Our test plots prove this earliest, most drought resistant. Cook buds like cabbage. 75-100 buds 1" across per stalk. Hardier than abage. Delivered prices—Oversize pkt. (1/16 oz.) 6c; 1 oz. 49c.

Beets for Cattle—See Mangels 1000
Beets for Sugar-syrup—See No. 1050.

Most Beautiful Flowers

From T & T Seeds

I am writing to let you know your seeds did very well for me last year. I had the most beautiful flower garden I have ever had, and an envy of all my neighbors.

Mrs. C. E. J., Spalding, Neb.

CABBAGE—Early

Pkt. sows 50 ft. of row.

320. Early Jersey Wakefield

This improved strain is the finest early ox-heart type in existence. Produces uniform, pointed, solid, well-flavored heads. The leaves are medium thin and of fine quality. This type is sweeter and more tender than the round-headed kinds. Be sure to try this special strain in the garden this year. Postpaid oversize pkt. ($\frac{1}{8}$ oz.) **6c**; 1 oz. **35c**; $\frac{1}{4}$ lb. **89c**; $\frac{1}{2}$ lb. **\$1.69**; 1 lb. and over **\$2.98** per lb.

330. Golden Acre

Round-headed type of early cabbage, a market garden favorite. Early as Jersey Wakefield. Heads average 3 lbs. Fine grained, well flavored. Postpaid oversize pkt. ($\frac{1}{8}$ oz.) **6c**; 1 oz. **35c**; $\frac{1}{4}$ lb. **89c**; $\frac{1}{2}$ lb. **\$1.69**; 1 lb. and over **\$2.98** per lb.

335. Red Acre (New Early)

Letters continue to pour in praising T & T strain Red Acre as one of the finest of cabbages. Earliness and reliability of Golden Acre combined with a rich red color. Exceptional quality of Red Cabbages Excellent for pickling. Postpaid oversize pkt. ($\frac{1}{8}$ oz.) **8c**; 1 oz. **49c**; $\frac{1}{4}$ lb. **\$1.52**; $\frac{1}{2}$ lb. **\$2.68**.

8900. SEE KIDDIES BIG ASSORTMENT PKT.
Big oversize blended packet, flowers and vegetables. Kiddies can have a big garden just like Mother and Dad for only **1c**.

It's been great satisfaction to get the letters back from the kiddies for the tens of thousands of these starter packets we've sent out in recent years.

I am writing to tell you of my kiddies one cent packet. Every seed came up I guess. I had corn before Mother or Dad. I had the biggest cabbages also the biggest melon. I had one cucumber and it was a big one too. I had sunflower, cauliflower, pumpkin, peas, etc., I thank you very much,
Your friend,

Master Richard Fowler, Compton, Quebec.

CABBAGE—Midseason

340. Copenhagen Market

★ Best market variety. Excellent quality, average heads, 4 lbs. with small core. Plant stem is short, leaves compact, allows for thick planting. About a week later than Golden Acre. Postpaid oversize pkt. ($\frac{1}{8}$ oz.) **6c**; 1 oz. **35c**; $\frac{1}{4}$ lb. **89c**; $\frac{1}{2}$ lb. **\$1.69**; 1 lb. and over **\$2.98** per lb.

345. Einkuizen Glory

Tops for Kraut because of its extra sweetness and crispness. A heavy yielding mid-season cabbage can be sown late for fall storage. Large heads about 8 inches across. Weight 6 lbs. Few outer leaves. Postpaid—Oversize pkt. ($\frac{1}{8}$ oz.) **6c**; 1 oz. **35c**; $\frac{1}{4}$ lb. **89c**; $\frac{1}{2}$ lb. **\$1.69**; 1 lb. and over **\$2.98** per lb.

346. Bonanza

Latest and best new cabbage. Highly resistant to splitting of heads. Good size and sure to become one of the most popular. Postpaid—Oversize pkt. ($\frac{1}{8}$ oz.) **10c**; 1 oz. **52c**; $\frac{1}{4}$ lb. **\$1.12**.

CABBAGE—Late

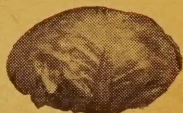

350. Danish Ballhead

An excellent winter keeper, widely adapted. Heads are round, solid and large. Seed in open at potato-planting time to produce a bumper crop for storage. Ideal for kraut. Postpaid oversize pkt. ($\frac{1}{8}$ oz.) **6c**; 1 oz. **35c**; $\frac{1}{4}$ lb. **89c**; $\frac{1}{2}$ lb. **\$1.69**; 1 lb. and over **\$2.98** per lb.

360. Penn State Ballhead

★ Uniform late cabbage. This strain most prolific. Alike in size, shape and color. Heads hard and heavy. One of the few varieties that is solid when small and remains so all season. Postpaid oversize pkt. ($\frac{1}{8}$ oz.) **6c**; 1 oz. **35c**; $\frac{1}{4}$ lb. **\$1.05**; $\frac{1}{2}$ lb. **\$1.88**; 1 lb. and over **\$3.38** per lb.

390. Chinese—Chihili

Easy grower; can be sown outside; for finest salads ever. Not a freak—its flavor combines the best of lettuce, celery, cabbage. Best sown outdoors in June or July—its growth will amaze you. Keeps better than head lettuce. Postpaid oversize pkt. ($\frac{1}{8}$ oz.) **6c**; 1 oz. **35c**; $\frac{1}{4}$ lb. **89c**; $\frac{1}{2}$ lb. **\$1.69**; 1 lb. and over **\$2.98** per lb.

Admits T & T Best of all Seeds Tried

I have told my friends how wonderful T & T seeds are, not because you asked me, but because I know them to be just the thing for any gardener. Each packet oversized with perfect seed, almost impossible for a failure, always advertised well, as to time of maturity—best buy on a star. Since I've used your seeds, I've always had bumper crops.

Mrs. N. M., Calder, Sask.

CARROTS

1 oz. seeds 250 ft. of row.

420. Red Cored Chantenay

★ Outstanding favorite. Orange-red clear to the centre. Flesh fine grained, sweet. Easily pulled size; 2 1/4" thick, 6" ong. Keeps well if stored in peat moss. Its sugar content has been recorded as high as 7.2%. Plant generously; store ample quantities for next winter. Postpaid, oversize pkt. (1/4 oz.) 6c; 1 oz. 21c; 1/4 lb. 74c; 1/2 lb. \$1.24; 1 lb. \$2.20.

430. Danvers Half Long

Supreme Strain

Favorite main-crop carrot. Produces heavy yields on all soils. Tops heavy, for easy pulling. Our strain smooth rooted, 1 3/4" thick, 6 1/2" long, blunt point. Flesh sweet, crisp and tender, unexcelled for table or storage. Postpaid, oversize pkt. (1/4 oz.) 6c; 1 oz. 21c; 1/4 lb. 74c; 1/2 lb. \$1.24; 1 lb. \$2.20.

440. Nantes Coreless

Early, handsome favorite. Orange scarlet, 1 1/2" thick cylindrical, 7" roots. Delicate flavor, tender and coreless. Home garden favorite, tops small, allows for close planting. It actually measures as high as 7.8% sugar content. Postpaid, oversize pkt. (1/4 oz.) 6c; 1 oz. 21c; 1/4 lb. 74c; 1/2 lb. \$1.24; 1 lb. \$2.20.

CAULIFLOWER

1 pkt. produces over 150 plants.

460. Early Snowball "A"

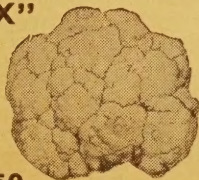

★ Best early Snowball ever tested of this widely used variety. Dependable, produces closest to 100% solid, pure white, finest quality heads. Excellent shipper. Postpaid, oversize pkt. (1/16 oz.)

10c; 1/4 oz. 42c; 1 oz. \$1.48; 1/4 lb. \$4.75; 1/2 lb. \$8.50.

470. Snowball "X"

Special early strain of Snowball. Excellent, medium size 2 lb. heads. Ready nearly a week earlier. Use this for several plantings in season. Postpaid oversize pkt. (1/16 oz.) 10c; 1/4 oz. 42c; 1 oz. \$1.48; 1/4 lb. \$4.75; 1/2 lb. \$8.50.

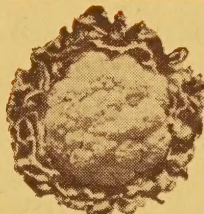

Bumper Crop from T & T Selected Carrots

I wish to say that, out of a packet of T & T carrot seed I grew almost 700 pounds of carrots. Many people stopped and admired the beautiful display of Gladiolus, for they were truly wonderful.

Mr. C. F., Box 166, Raymore, Sask.

CAULIFLOWER—Cont'd

475. Erfurt Improved

Heads hard and compact. Leaves long to shade and self-blanch. Ready after Snowball X. Gives longest season of cutting, therefore, home and market garden favorite. Postpaid, oversize pkt. (1/16 oz.) 10c; 1/4 oz.

42c; 1 oz. \$1.48; 1/4 lb. \$4.75; 1/2 lb. \$8.50.

CELERY

Don't chill or dry seedlings. It causes bolting.

500. Cornell No. 19 (New)

★ Outstanding. From Minneapolis north and west, is best blanching, celery for home or market garden. For uniformity, non-bolting, size and crispness, you should try it. Postpaid. Oversize pkt. (1/16 oz.) 8c; 1/2 oz. 55c; 1 oz. 89c.

CELERY—Green

510. Emerson Pascal (New)

★ Outstanding new green celery is a vigorous tall grower. Crisp stalks are larger than Utah. Outstanding quality best for storage. Postpaid—Oversize pkts. (1/16 oz.) 12c.

520. Utah, Salt Lake Improved

Favorite; green celery is higher in vitamins, meaty, stringless and crisp easiest grown, as they don't require blanching. Utah is early, a green home and market garden favorite. Postpaid—Oversize pkt. (1/16 oz.) 6c; 1/2 oz. 38c; 1 oz. 55c; 1/4 lb. \$1.98.

525. Celery Seed

For rheumatism and especially soup flavoring. See packet. Non-germinating. Postpaid, oz. 23c; 1/4 lb. 59c.

CHICORY

540. Whitloof (Coffee Sub.)

Grow like parsnips. Slice, dry and roast. Instructions on packet. Postpaid, pkt. (1/2 oz.) 6c.

T & T Triple Tested Corn Proves Earliest

We are very satisfied with your seed. This year I thought I didn't have enough Golden Bantam corn, so bought one pound elsewhere and planted it beside T & T seed. We have been using corn from your seed for over two weeks. We haven't used any from the other seed as it did not mature. We are very satisfied T & T users since 1946.

Mrs. J. B. M., Herschel, Sask.

SWEET CORN—Hybrid

1 lb. to 100 hills—per acre sow 10 lbs.

Hybrid Sweet Corns are quickly gaining popularity. Extra hybrid vigor, larger ears, are more uniform, deeperkerneled and sweeter. Plants more drought and wind resistant. They are surprisingly early.

548. Sugar Prince (New)

★ Original T & T introduction. From C. Walkof, Morden Exp. Farm, this Hybrid has quality of Golden Bantam with the vigor and earliness of Sunshine. 7 years Northern breeding for its deeper color and improved flavor and sweetness make it the heaviest yielding hybrid for prairies. Ready Winnipeg Aug. 7. Special Hybrid Seed. Postpaid—Pkt. (1 oz.) 11c; 2 pkts. 19c; ¼ lb. 29c; ½ lb. 48c; 1 lb. 84c.

595. Miniature, New Dwarf

Golden yellow, very early, superb quality. Best in many state tests in 1951. Be safe, try this and give us the benefit of your opinion. Pkts. (1 oz.) 11c; ½ lb. 39c; 1 lb. 73c.

550. Spancross (Early)

Bred by Dr. Singleton of Conn. for Northern gardens—10-12 rows, tender, very sweet and meaty kernels, filled well to tip. Tested 14% sugar. Ready Winnipeg Aug. 1. Postpaid, oversize pkt. 1 oz. 9c; ½ lb. 33c; 1 lb. 55c.

SWEET CORN

Northern grown—hand rogued—early strains.

590. T & T Golden Midget (New)

★ New Midget Bush Corn. Grows 2½-3 ft. high. Space saver for small garden. One of the earliest, sweetest, tenderest. Heavy yield of medium sized ears. Ready Winnipeg July 24. We're proud of this introduction; its real merit is certain to make it a Northern favorite. Don't miss trying. Seed scarce and expensive to produce. Postpaid, oversized pkt. (1 oz.) 11c; ¼ lb. 29c; ½ lb. 48c; 1 lb. 84c.

sive to

Eight

Praises High For Golden Midget Corn

Sample of T & T Midget corn you sent was the most delicious and sweetest corn we have ever had. I had one of the best gardens in the district. I give full credit to T & T. Most people had poor results because their seeds did not come up. Mine came up so thick I gave dozens and dozens of flower and vegetable plants away to my friends. I had a wonderful crop of potatoes from you.

Mrs. C. H., R.R. 1, Nelson, B.C.

SWEET CORN—Cont'd

600. Golden Bantam (Burbank)

Special reselected T & T strain 1 week earlier than any other Bantam; tested 17.4% sugar. Ready Winnipeg Aug. 16. Large ear size, tops for table or canning. Holds color well after cooking. Amazing sugar yield is credit to Burbank. Postpaid oversize pkt. (1 oz.) 5c; ¼ lb. 15c; ½ lb. 24c; 1 lb. 39c; 5 lb. and over 35c.

615. Dorinny

Favorite, very early Sweet Corn for North. Analyzed 16% sugar, as sweet as a Sugar Beet. Developed by Canadian Exp. Farms for northern arctic conditions; matures 3 weeks earlier than Bantam—matures 1500 miles north of the American border. Small core, exceptionally deep kernels, a real find. Postpaid oversize pkt. (1 oz.) 6c; ¼ lb. 17c; ½ lb. 27c; 1 lb. 42c; 5 lbs. and over 39c.

640. Sunshine

Developed by Prof. Yeager while at North Dakota. 10-14 days earlier than Bantam. The large ears, 12 rowed, 7" long and wonderful flavor, one of the best home garden sweet corn for the western plains. Postpaid oversize pkt. (1 oz.) 5c; ¼ lb. 15c; ½ lb. 24c; 1 lb. 39c; 5 lbs. and over 35c.

POP CORN

666. T. & T. Early Atomic (New)

★ Exclusive T & T origination is finest earliest quality popcorn offered Northern gardeners. It combines tender white hull-less kernels of the South American hybrids with amazing earliness. You can now be sure of your own home-grown, big, tender, popcorn. Try it. It'll certainly be a favorite. Scarce. Postpaid, oversize pkt. (1 oz.) 9c; ¼ lb. 21c; 1 lb. 59c.

Admits T & T Best of all Seeds Tried

I planted a **T & T** garden two years in a row and had lovely Vegetables all summer long and plenty for canning. Last year I bought seeds at the store and with favorable conditions as to moisture the seeds just didn't come up and we did not have enough for our own use. So I've learned my lesson and will continue with **T & T**.

Mrs. W. P., Wheatstone, Sask.

CRESS—Garden

690. Fine Curled

Earliest, most crinkled, compact, deep green cress grown. Used for garnishing salads, in soups, etc. Postpaid, pkt. ($\frac{1}{2}$ oz.) **5c**.

CUCUMBER—Hybrid

700. Super Croo Hybrid 5A

★ **T & T** leads with first Hybrid Cuke for North. Hand bred, first generation Hybrid Seed, carries the extra vigor for higher yields, disease resistant, better quality, uniform, firm right through. **T & T** 5A Hybrid is a dual cuke for gherkins, dills, pickles and slicing. Backed by years of breeding and selecting by **T & T**, it's good. Hand crossed hybrid seed—50 seeds per packet—Postpaid **19c**; 1 oz. **\$3.98**.

CUCUMBER—Dual

1 oz. seeds 200 feet of row.

703. Early Siberian Select Strain No. 27

★ Earliest of cukes, **T & T** No. 27 is uniformly highest yielding, most compact. Excellent for early dills. Can be sown late in the spring for a good fall crop. Extreme northern gardens can use this sweet slicer when other varieties can't be matured. Special Postpaid Price— $\frac{1}{2}$ oz. **7c**; 1 oz. **27c**; $\frac{1}{4}$ lb. **89c**.

710. Earliest Green

★ An early variety, ready 8-10 days before first bush tomatoes ripen. Fruits blunt. Excellent for dill pickles. Used extensively for slicing. Flesh thick white, skin deep green, a heavy yielder. Postpaid oversize pkt. $\frac{1}{2}$ oz. **5c**; 1 oz. **20c**; $\frac{1}{4}$ lb. **65c**; $\frac{1}{2}$ lb. **\$1.18**; 1 lb. and over **\$2.10**.

711. Improved Mincu

Exclusive **T & T** introduction. Absolutely best highest yielding, most uniform top quality, early dual-purpose cuke ever offered. **T & T** stock grown from special new foundation seed from Dr. Hutchins, Univ. of Minn. Short vines, compact, amazing yielder. No one else has this improvement. Special postpaid prices—($\frac{1}{2}$ oz.) **6c**; 1 oz. **24c**; $\frac{1}{4}$ lb. **78c**.

CUCUMBERS—Slicing

Slicers have white spines.

718. Highmoor (NEW)

Here's an excellent slicing, heavy yielding cuke with a small seed core. Flesh is white and sweet. Skin deep green. Color and flesh tops. Season of straight 8. Postpaid—Oversize pkts. ($\frac{1}{2}$ oz.) **7c**; 1 oz. **25c**; $\frac{1}{4}$ lb. **78c**.

720. Straight 8

Gold Medallist. The outstanding medium early cucumber to date. Follows early picklers with consistent 8" cylindrical fruit. Just what the market ordered. Flesh is thick, creamy white—flavor is excellent. Postpaid oversize pkt. ($\frac{1}{2}$ oz.) **5c**; 1 oz. **20c**; $\frac{1}{4}$ lb. **65c**; $\frac{1}{2}$ lb. **\$1.18**; 1 lb. and over **\$2.10**.

755. Marketer (New)

★ Try this for outstanding flavor. Flesh pearly white, crisp and fine. Beautiful large fruits—ready when most other varieties are past their prime. This earliest of the heavy yielders will be the pride of the neighborhood. Dark green, cylindrical and attractive. Special Postpaid prices pkt. ($\frac{1}{2}$ oz.) **7c**; 1 oz. **25c**; $\frac{1}{4}$ lb. **78c**; $\frac{1}{2}$ lb. **\$1.48**; 1 lb. **\$2.40**.

CUCUMBERS—Pickling

770. Green Thumb (New)

★ Perfect for pickles is the new Green Thumb pickling cucumber, abundant yield, deep green color which is retained, unlike most pickles, through the large dill and slicing stage. Very early, compact vines allows closer planting. Shape is perfect too, straight smooth sides and blunt ends. Postpaid—Oversize pkt. (100 seeds) **12c**.

775. Yorkstate (New)

This is the best and heaviest yielding Pickling Cucumber we have ever tested here under Northern conditions. It has consistent firmness and uniform size for pickling either for gherkins, dills or pickling. Keep Yorkstate picked for the biggest yield of pickles you've ever had. Postpaid—oversize pkt. ($\frac{1}{2}$ oz.) **9c**; 1 oz. **34c**; $\frac{1}{4}$ lb. **\$1.09**.

785. Boston Pickling

Blunt end type; at 3-3 $\frac{1}{2}$ in. makes crispest most flavorful dill pickles. A heavy yielder. Be sure to pickle enough to last the family all fall and winter. Postpaid—Oversize pkt. ($\frac{1}{2}$ oz.) **5c**; 1 oz. **20c**; $\frac{1}{4}$ lb. **65c**; $\frac{1}{2}$ lb. **\$1.18**. Special price 1 lb. and over **\$2.10** per lb.

Colossal Petunias

Prove Colossal

Thank you for your sample of **T & T Beefsteak** and the "Seasons Greetings." The Petunia seed, Colossal shades of rose—they certainly were colossal. I had blooms seven inches across.

Mrs. M. W. B., R.R. 15, New Westminster, B.C.

EGG PLANT

Plant and handle like tomatoes.

805. T&T Early Black Oval (New)

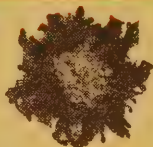

★ Another **T & T** break. First real early egg plant bred for North lands. 10 to 14 days earlier than any other. Wonderful size and quality. This **T & T** beauty takes the risk out of egg plants and is certain to replace all others. Postpaid—oversize pkt. (250 seeds) **11c.**

ENDIVE

820. Green Curled

Delicious as a salad or cooked like Spinach. Beautiful green feathery leaves. If tied they blanch to a creamy yellow. Postpaid oversize pkt. ($\frac{1}{8}$ oz.) **5c.**

HERBS

Spice of Life. Include some herbs with your order, to add that tasty appetizing flavor that completes a meal. Easy to grow.

Each variety. Oversize pkt. **6c.**

840-Caraway. Seeds, flavor cake, bread, etc.

842-Dill. Famous flavor for dill pickles.

846-Sage. Favorite in meat-poultry dressing.

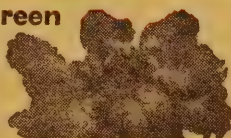

847-Summer Savory. For salads, stews and gravies.

KALE

860. Short Green Curled Scotch

Earliest tender kale. Dwarf, green, late fall. Frost improves tasty cabbage flavor. Postpaid, oversize pkt. **4c;**

Ten

Everywhere You Go T & T Seeds Outperform

Everywhere we go we hear of the excellent results from **T & T** seeds.

Mr. A. M. M., Wapella, Sask.

Have been using **T & T** seeds for a number of years. When using **T & T** one never has to test the seeds. Best in quality and quantity. So easy to make the order—Keep up the good work.

Mrs. T. D.

KOHL RABI

870. Triumph of Prague

Our strain mildest flavored. Cook when small, like turnips. Successful in drought when turnips are woody. Plant and handle like cabbage. Postpaid, oversize pkt. ($\frac{1}{2}$ oz.) **5c;** 1 oz. **33c.**

LEEKs

880. Giant Musselburgh

Hardest variety for the prairies. Start indoors for fine flavored, pure white, $1\frac{1}{2}$ " stalks. Ready when Bantam corn usable. Used in soups, stews, or with a cream sauce. Postpaid, oversize pkt. ($\frac{1}{8}$ oz.) **8c;** 1 oz. **43c.**

LETTUCE—Loose Leaf

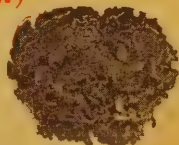

1 oz. sows 300 ft. of row.

900. Grand Rapids

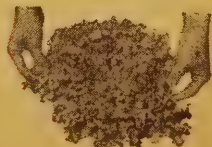

Leaves bright green, broad, thin and tender. Attractively frilled. Oversize pkt. ($\frac{1}{2}$ oz.) **5c;** 1 oz. **18c;** $\frac{1}{4}$ lb. **54c;** $\frac{1}{2}$ lb. **92c;** 1 lb. **\$1.65.**

905. Slobolt (New)

★ New U.S. Govt. release. First break in leaf lettuce in years. Type offers prairie heat and drought resistance by holding its delightful crisp, sweet flavor much longer than the older leaf lettuce varieties. Doesn't bolt seed stocks and become bitter. Eventually all gardeners will grow Slobolt. Why not try it now? Postpaid, oversize pkt. ($1/16$ oz.) pkt. **7c;** 3 pkts. **18c;** 1 oz. **42c.**

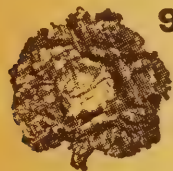

910. Salad Bowl (New)

New leaf lettuce type. Rosette growth cut and indented leaves of delicious flavor. Keep cut—it keeps coming. Does well under dry conditions. Postpaid—Oversize pkts. ($1/16$ oz.) **11c.**

LETTUCE—Head

This is the finest list of Head Lettuce ever offered Canadian Gardeners. Bred and Selected under hot-dry-long day Northern summers. Each variety in its season will amaze you with its high percentage of firm crisp heads. You can now be sure of prime head lettuce from June till September, with these Plant Breeder triumphs.

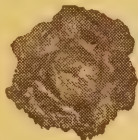

930. Progress (New)

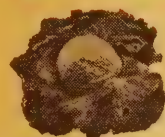

Here's a tip burn resistant, consistent header under dry conditions. Solid heads, uniform medium size—well flavoured. Postpaid—Oversize pkts. ($\frac{1}{2}$ oz.) **9c**; 1 oz. **48c**.

940. New York No. 12

Here's a select northern strain of this old favorite; reliable header, excellent quality under cool conditions. Heads compact, sweet. Postpaid oversize pkt. ($\frac{1}{2}$ oz.) **5c**; 1 oz. **18c**; $\frac{1}{4}$ lb. **54c**; $\frac{1}{2}$ lb. **92c**; 1 lb. **\$1.65**.

960. Sweetheart (456) Re-selected

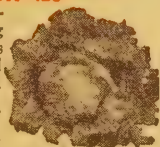

New T & T introduction. This strain increased from a single outstanding mother plant. Most excellent, consistent, hard headed, very early head lettuce. Widely adaptable. Delivered, Oversize packet. ($\frac{1}{2}$ oz.) **9c**; 1 oz. **48c**; $\frac{1}{4}$ lb. **\$1.41**.

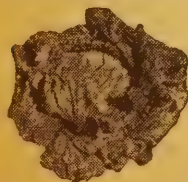

965. Early Great Lakes (New)

IMPROVED STRAIN 428

Ten days earlier than standard Great Lakes. Breeding under Northern conditions has fixed earliness, yet preserved the tremendous vigor, heat and drought resistance of Great Lakes. Is early consistent producer of solid, long lasting, quality heads. Delivered, Oversize pkts. ($\frac{1}{2}$ oz.) **11c**; 1 oz. **52c**; $\frac{1}{4}$ lb. **\$1.56**; 1 lb. **\$4.65**.

970. Great Lakes Imp. Strain 407

Outstanding break. Here's head lettuce by which all others will be judged. Leaves heavy as cabbages, yet crisp and tender; amazing. Heads solid as baseballs, even in hottest weather. We're proud of this introduction and the special seed we have of it. Seed scarce. Quality tops.

Delivered, oversize packet. ($\frac{1}{2}$ oz.) **8c**; oz. **42c**; $\frac{1}{4}$ lb. **\$1.25**; 1 lb. **\$3.95**. Our strain won First Prize, United States Govt. 1947 Trials.

MANGELS

Cheapest Livestock Feed. Sow 5 lbs. per acre.

1000. Barres Sludstrup

Heavy yielder—long red-yellow roots grow $\frac{1}{2}$ above ground. One of the easiest to harvest. Postpaid $\frac{1}{4}$ lb. **23c**; $\frac{1}{2}$ lb. **44c**; 1 lb. **69c**.

1020. Half (White) Sugar

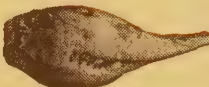

Here's a mangel, sugar beet hybrid, combining Mangel yields with the high food value of sugar beets. Sticks well out of ground. Postpaid $\frac{1}{4}$ lb. **23c**; $\frac{1}{2}$ lb. **44c**; 1 lb. **69c**.

SUGAR BEETS

1050. Early Northern

Bred on Prairies

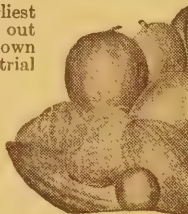

Early sugar beet. Make syrup at home. Instructions on packet. Sugar content too high for cattle feed. Postpaid $\frac{1}{4}$ lb. **23c**; $\frac{1}{2}$ lb. **44c**; 1 lb. **69c**.

MUSKMELON

Bred in the North and are really early
1 oz. sows 100 ft. of Row.

1100. Trial Plot Hybrids

Seed collected from the earliest and best quality muskmelons out of the hundreds of strains grown in our breeding work on our trial grounds last season. Here you will find melons of various shapes and sizes—they will all be early. Have fun. Select the earliest, sweetest types for your district. Postpaid—Oversize pkt. ($\frac{1}{2}$ oz.) **6c**.

1105. (Re-selected) Farnorth

Outstanding, earliest, sweetest muskmelon. On our trial plots tested $14\frac{1}{2}\%$ sugar, almost as high as sugar beets. Flesh firm, rich salmon, pleasant flavour. Extremely early—ripens with Bounty Tomato. Try it. Compact heavy yielding vines. Postpaid oversize pkt. ($\frac{1}{2}$ oz.) **6c**; 1 oz. **19c**; $\frac{1}{4}$ lb. **65c**; $\frac{1}{2}$ lb. **\$1.17**.

T & T Seeds Are Super in Saskatchewan

As far as we're concerned T & T seeds are super. There are never any gaps in the rows. I have distributed your cards to the neighbors who will no doubt use T & T seeds in the future after seeing our garden these past years. Bush Beefsteak are the best as far as size and fleshy fruit that we have ever grown.

Mrs. A. B., Chioiceland, Sask.

WATERMELON

T & T melons are constantly being reselected and improved for reliable earliness, larger size and improved quality.

1225. New Hampshire Midget (New)

★ This little watermelon, $2\frac{1}{2}$ lbs. weight, 5 in. diameter, is the earliest of its kind in new varieties introduced by Dr. A. F. Yeager formerly of Fargo, North Dakota. The rind is thin, the flesh is a deep red and very pleasant tasting. It ripens a few days after Early Chatham tomatoes begin to ripen. Postpaid—Oversize pkt. ($\frac{1}{2}$ oz.) 11c; 1 oz. 44c.

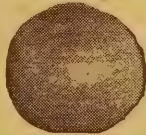

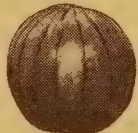

1230. Sweet Sensation

Leads the field for size. Bright red flesh, small seeds, outstanding sweetness. T & T have spent years selecting this stock. True seed scarce.

Postpaid—Oversize pkt. ($\frac{1}{2}$ oz.) 9c; 1 oz. 36c.

1240. Early Canada

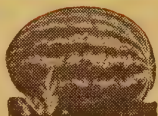

This Watermelon ripens just after Bounty Tomatoes. 10" fruits, medium rind, bright red, sweet, juicy flesh. Postpaid oversize pkt. ($\frac{1}{2}$ oz.) 6c; 1 oz. 22c; $\frac{1}{4}$ lb. 76c; $\frac{1}{2}$ lb. \$1.33.

CITRON

1300. Red Seeded

Makes delicious clear preserves or marmalade. Not eaten raw. This strain is earliest and easily grown. For lots of preserves try this. Postpaid oversize pkt. ($\frac{1}{2}$ oz.) 6c; 1 oz. 19c; $\frac{1}{4}$ lb. 65c; $\frac{1}{2}$ lb. \$1.17.

OKRA

1330. Dwarf Early Green (Gumbo)

The only Okra for Northern Districts. Delicious in soups. Try it. Postpaid Pkt. 6c;

Twelve

METEOR replaces CHATHAM

Before I have always used your Early Chatham Bush tomato. But I must say the New Meteor has them beat for strong, sturdy plants, larger fruit and bear quite a lot earlier. I truly liked them real well.

Mrs. B. E., Stettler, Alta.

ONION—Yellow

1 oz. seeds 100 ft. of row.

1430. Early Y. Globe

By 10 days earliest Danvers onion for northern gardens. Yellow, thin scales; mild, excellent flesh. Postpaid oversize pkt. ($\frac{1}{2}$ oz.) 6c; 1 oz. 35c; $\frac{1}{4}$ lb. \$1.17; $\frac{1}{2}$ lb. \$2.13; 1 lb. \$3.60; 5 lbs. and over \$3.20 lb.

1440. Y. Globe Danvers

Our strain hardest, best keeping, early ripening Danvers. Sweet flavor, standard northern winter storage. Postpaid oversize pkt. ($\frac{1}{2}$ oz.) 6c; 1 oz. 35c; $\frac{1}{4}$ lb. \$1.17; $\frac{1}{2}$ lb. \$2.13; 1 lb. \$3.60; 5 lbs. and over \$3.20 lb.

1450. Brigham Yellow Globe

★ New, with outstanding storage qualities. Longest keeper, doesn't bruise. Excellent eating and cooking quality. High yielder. Postpaid oversize pkt. ($\frac{1}{2}$ oz.) 6c; 1 oz. 35c; $\frac{1}{4}$ lb. \$1.17; $\frac{1}{2}$ lb. \$2.13; 1 lb. \$3.60; 5 lbs. and over \$3.20 lb.

ONIONS—Spanish

1470. Riverside Sweet Spanish

NEW IMP. STRAIN 49.

★ A heavier yielding earlier strain with deeper brown firmer skin of this popular, most widely grown mild-flavored, sweet spanish for North. If started indoors transplanted, grows to 3 lbs. Delicious slicer. Delivered prices—Oversize pkt. ($\frac{1}{2}$ oz.) 7c; 1 oz. 44c; $\frac{1}{4}$ lb. \$1.45; $\frac{1}{2}$ lb. \$2.75; 1 lb. \$4.98.

T & T Nursery Stock

Makes Big Hit

I was more than satisfied with the nursery stock you sent last year, and am enclosing another order. Thanks for the Tomato seed. They were the nicest tasting tomatoes I've ever used, especially for canning.

Mrs. J. T. C., Pontrilas, Sask.

Here's Why Thousands Change to T & T Every Year

I have been a user of your seeds for some time now, and like them very much. I do have some wonderful gardens, thanks to your swell seed.

R. L., Clyde, N. Dak.

I want you to know I got first prize at the Midland Empire Fair this year on my cauliflowers. I also won first prize at our Jim Bridger Fair. The seed was from T & T Seeds, never saw finer.

Mrs. J. P., Bridger, Mont.

Your Artic Sweet peas were wonderful last year, even though we had a poor growing season.

Mrs. C., Sheldon, Wis.

Your Baby Blue squash are the best we have ever eaten. Just right for size, early to ripen, and good keepers for winter use.

F. Van D., Custer, Mont.

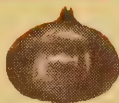

Your seeds are tops and better than others in comparison. A big thank you.

Mrs. J. S., New Vienna, Ia.

ONIONS—Special

1475. Red Wethersfield

The oldest and best red onion. Large bulbs, small neck, heavy yielder. Red onions are famous keepers. Postpaid oversize pkt. ($\frac{1}{8}$ oz.) 6c; 1 oz. 35c; $\frac{1}{4}$ lb. \$1.17; $\frac{1}{2}$ lb. \$2.13; 1 lb. \$3.60; 5 lbs. and over \$3.20 lb.

1480. Silverskin W. Port

Best pickling onion. When young, round pure white. When full grown, excellent for slicing. Not a winter keeper. Postpaid oversize pkt. ($\frac{1}{8}$ oz.) 7c; 1 oz. 44c; $\frac{1}{4}$ lb. \$1.45; $\frac{1}{2}$ lb. \$2.75; 1 lb. \$4.98.

1490. Welsh Winter

Perennial. Hardy, produces delicious early green onions first thing in the spring. Doesn't form bulbs. Postpaid oversize pkt. ($\frac{1}{8}$ oz.) 6c; 1 oz. 35c; $\frac{1}{4}$ lb. \$1.17; $\frac{1}{2}$ lb. \$2.13; 1 lb. \$3.60; 5 lbs. and over \$3.20 lb.

CHIVES

1495—Hardy perennial, all should grow. Produces fine, mildly pungent leaves. Flavors stews, soups, salads. Postpaid, oversize pkt. (1/16 oz.) 8c.

New T & T Tomatoes Lead Again

The season was very poor. The New Meteor tomato was very good with no suncracks. The New Beefsteak was very good, they sure are large—most of them over a pound. I will replace Bounty with New Beefsteak in the future. I always tell people I use T & T seeds.

Mr. N., Maryfield, Sask.

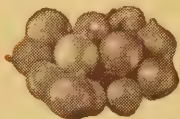

ONION SETS

The seeds and onion sets arrived O.K. Sure are lovely onion sets.

Mrs. H. S., Connell Creek, Sask.

See special listing of
Onion Sets—Multi-
pliers—Garlic on page
31.

Onions are scarce. We have some top quality stocks.

PARSLEY

1500. Moss Curled

Adds tasty appetising garnish to meals. This is best parsley. Outstanding tender, densely curled, bright green leaves. Postpaid, oversize pkt. ($\frac{1}{8}$ oz.) 5c; oz. 17c.

1520 Lrg. Rooted Hamburg

Easily grown; produces delicious parsnip sized roots, used like celery for delicious and tasty flavoring in soups and stews. Postpaid, oversize pkt. ($\frac{1}{8}$ oz.) 5c.

PARSNIPS

$\frac{1}{2}$ oz. sows 100 ft. row; 2 to 3 lbs. per acre.

1550. Hollow Crown Guernsey

A standby and favorite of most gardeners. Roots white and fine grained—Roots long, 10-12". Best for light land. Oversize pkt. ($\frac{1}{4}$ oz.) 5c; 1 oz. 14c; $\frac{1}{4}$ lb. 40c; $\frac{1}{2}$ lb. 67c; 1 lb. and over \$1.19 lb.

1570. Short Thick

Ideal on heavy and clay soils. ★ short, easy to pull roots, 5-7 in. long. Tender and sweet. Early. Oversize pkt. ($\frac{1}{4}$ oz.) 5c; 1 oz. 14c; $\frac{1}{4}$ lb. 40c; $\frac{1}{2}$ lb. 67c; 1 lb. and over \$1.19 lb.

1580. All American (New)

Outstanding in quality; few or no side roots. Very small core. Roots intermediate size, ideal for winter storage. Oversize pkt. ($\frac{1}{4}$ oz.) 5c; 1 oz. 14c; $\frac{1}{4}$ lb. 40c; $\frac{1}{2}$ lb. 67c; 1 lb. and over \$1.19 lb.

Above snap is early Beefsteak Tomatoes. There were 8 and 9 tomatoes on most plants almost weighing a pound, besides smaller ones, also several ripe ones already picked. Tomatoes are lovely and juicy for canning too. The glads, were lovely, in fact they were a joy to everyone that saw them.

Mrs. J. M., Wapella, Sask.

PEAS—Early

1 lb. to 150 ft. of row

1605. Motor Driven Power Pea Sheller

An electric motor driven PEA SHELLER makes preparation of peas for QUICK FREEZING or CANNING fast and easy. Capacity 6 bushels per hour. Buy this tested and proven Power Sheller for personal use or use by Community, Homemakers Club, Ladies Aid or other groups. Sturdily made—will last for years. Occupies floor space 3' x 4' and stands 5' high. Price with motor and belts f.o.b. Grand Forks—only **\$85.00**. Without motor or belts—**\$50.00**.

Limited number only of these shellers—order early to avoid disappointment.

1611. Morse No. 9 (New)

Largest podded dwarf early pea. Excellent big pea for freezing or canning, as early as Arctic Sweet. Performs well on Prairies. Short sturdy plants 12-15" tall. Nearest in pod size and peas to Thos. Laxton type. Postpaid, oversize pkt. (1 oz.) **7c**; $\frac{1}{4}$ lb. **16c**; $\frac{1}{2}$ lb. **26c**; 1 lb. **47c**; 5 lbs. **\$1.88**.

1615. T & T Arctic Sweet

Exclusively T & T. Proved again last season to be the finest new vegetable released in years. 5 days earlier than Little Marvel it sets full pods of 8-10 peas even in the hottest weather. Combines earliest maturity with heavy yield and pod size. Flavor is absolutely tops. Grow this for sure. Postpaid oversize pkt. (1 oz.) **7c**; $\frac{1}{4}$ lb. **16c**; Seed scarce, limit $\frac{1}{4}$ lb. per customer.

T & T Seed Supreme Claims Wisconsin User

I have planted a T & T garden this year and I do want to tell you that it is absolutely the best I have ever planted, also the largest for the least money. I want to thank you again for the good seed, your generosity, and prompt shipment.

L. C. W., Loyal, Wis.

Best Garden Ever

I want you to know I had very good success with your seeds. Our boy received blue ribbons on the egg plant and peppers at the county fair. My petunias were gorgeous, I won ribbons on them also and everyone thought them so beautiful. Will be looking forward to your new catalog.

Mrs. H. L., Sioux Falls, S. Dak.

Last year I borrowed your seed digest and ordered muskmelon and watermelon. I planted them real late and in August they were ripe. I was very much pleased with them. I'll get all my seeds from T & T seeds, for what we need here is early stuff for our short season. Your very much satisfied customer.

Mrs. L. R., Grafton, N. Dak.

PEAS—Midseason

New—Don't pass up this advance.

1620. T & T Triumph

This introduction is a real accomplishment—excellent quality, top yield, vigorous vines—analysed $14\frac{1}{2}\%$ sugar on our test plots, and holds it over longer periods. Cooks lively green, sweetest, tenderest ever. Postpaid oversize pkt. (1 oz.) **6c**; $\frac{1}{4}$ lb. **15c**; $\frac{1}{2}$ lb. **24c**; 1 lb. **39c**; 5 lbs. **\$1.68**.

1630. Homesteader (Lincoln)

Highest yielder, favorite for western plains, excellent quality, large pods, vigorous—drought resistant vines. This should be your standard—grow it. Postpaid—Oversize pkt. 1 oz. **5c**; $\frac{1}{4}$ lb. **13c**; $\frac{1}{2}$ lb. **21c**; 1 lb. **35c**; 5 lbs. **\$1.53**.

1640. Laxtons Superb

Excellent Quick Freezer
Pea and pod size as large as the latest, but is ready soon after Little Marvel. Runs 13% sugar, dwarf vines. Postpaid oversize pkt. 1 oz. **5c**; $\frac{1}{4}$ lb. **13c**; $\frac{1}{2}$ lb. **21c**; 1 lb. **35c**; 5 lbs. **\$1.53**.

PEAS—Soup

1685. Arthur (New)

Enjoy delicious bowls of nourishing pea soup. New Arthur is great improvement over Dash-away, etc. Has larger peas—bigger yield—better quality—more weather resistant. Postpaid, oversize pkt. (1 oz.) **4c**; 2 pkts. **7c**; $\frac{1}{2}$ lb. **18c**; 1 lb. **29c**; 5 lbs. **\$1.15**.

Cherry Belle & Golden Midget Are Favorites

Last year the whole garden was excellent. I want to especially praise Cherry Belle radishes. They were ready sooner than I expected, never much showing above the ground but the roots were delicious for several weeks. I really preferred the flavor of the Golden Midget corn. The small ears were so handy to cook and serve that I used it almost exclusively for the table. Mrs. A. W. P., Cheviot, Sask.

PEPPERS—Sweet

1715. T&T Tendersweet (New)

★ Peppers, booming in popularity. First bred here for the North; 10 days ahead of King of North, with thicker meat and sweeter. Clusters of 6-7 immense fruits. A real break due to replace all others. Postpaid, oversize pkt. (250 seeds) **13c.**

1725. Morgold (New)

Here's a new pepper from Morden Exp. Farm for the first time. Has thickest green sweet flesh, (turns yellow when ripe). Heavy yielder follows few days after Tendersweet but much earlier than King of North. Large upright fruits. Seed scarce. Postpaid—Oversize pkts. (250 seeds) **13c.**

PEPPERS—Hot

1750. Hamilton Market

Best hot pepper for northern gardens. Ripens with Earliana tomato. Grow your own for pickles and flavoring. Oversize pkt. ($\frac{1}{4}$ oz.) **7c**; 1 oz. **63c**

PUMPKIN—Pie

1820. Early Cheyenne Bush

★ Newly developed—with ad-va tages of Early Cheyenne. Compact 4-ft. bushy vines; for small home garden. Plant yields 3-4 excellent fruits each. Oversize pkt. ($\frac{1}{4}$ oz.) **6c**; 1 oz. **23c**; $\frac{1}{4}$ lb. **83c**; $\frac{1}{2}$ lb. **\$1.39**; 1 lb. and

over **\$2.40** per lb.

1830. Sugar

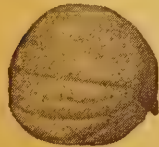

Most productive pumpkin available—extra fine flavor and sweet—10" fruits keep well. Sweet for pies. Oversize pkt. ($\frac{1}{4}$ oz.) **6c**; 1 oz. **23c**; $\frac{1}{4}$ lb. **83c**; $\frac{1}{2}$ lb. **\$1.39**; 1 lb. and over **\$2.40** per lb.

1840.

King of Mammoth

Tremendous size—will store till Xmas. Flesh bright orange, fine textured and sweet. Best of the large pumpkins. Oversize pkt. ($\frac{1}{4}$ oz.) **6c**; 1 oz. **23c**; $\frac{1}{4}$ lb. **83c**; $\frac{1}{2}$ lb. **\$1.39**; 1 lb. and over **\$2.40** per lb.

Never A Failure With T & T Seeds

I might say I have dealt with you since you began and have found your seed very satisfactory in every way, and have never had a failure; in fact one of the best gardens around here, I have been told.

H. J. S., Balmoral, Man.

RADISHES

1 oz. sows 100 ft. of row.

1900. French Breakfast

Favorite and best, early, deep, spring or forcing radish. Bright scarlet, white tip. Sweet and excellent quality.

Use early. Postpaid oversize pkt. ($\frac{1}{4}$ oz.) **5c**; 1 oz. **12c**; $\frac{1}{4}$ lb. **29c**; $\frac{1}{2}$ lb. **47c**; 1 lb. and over **79c** per lb.

1910. White Icicle

Favorite summer radish; long white roots; stands heat better than most round varieties.

When $\frac{1}{2}$ " across flavor best, mild and crisp. Postpaid oversize pkt. ($\frac{1}{4}$ oz.) **5c**; 1 oz. **12c**; $\frac{1}{4}$ lb. **29c**; $\frac{1}{2}$ lb. **47c**; 1 lb. and over **79c** per lb.

1930. Cherry Belle (New)

★ Best Radish on T & T Test Plots. Stanos neat. Sweet and early. It does not become hot and pithy, in hot dry weather. Round, fiery scarlet like a cherry—excellent for repeated plantings. Postpaid, oversize pkt. ($\frac{1}{4}$ oz.) **7c**; 1 oz. **24c**.

1950. Comet

Excellent all-round summer radish. Outstanding ability to remain solid, even in hot weather. Bright red; flesh solid, quality excellent. Seed scarce. Postpaid oversize pkt. ($\frac{1}{4}$ oz.) **5c**; 1 oz. **12c**; $\frac{1}{4}$ lb. **29c**; $\frac{1}{2}$ lb. **47c**; 1 lb. and over **79c** per lb.

1970. Sparkler

Excellent bi-color red and white roots. Market garden favorite for early use. Flesh sweet and pleasant. Postpaid oversize pkt. ($\frac{1}{4}$ oz.) **5c**; 1 oz. **12c**; $\frac{1}{4}$ lb. **29c**; $\frac{1}{2}$ lb. **47c**; 1 lb. and over **79c** per lb.

RADISHES—Winter

1990. Black Spanish

Spicy, pungent winter radish; store like carrots in cool, damp moss. Black skin; white, crisp flesh. Postpaid oversize pkt. ($\frac{1}{4}$ oz.) **5c**; 1 oz. **12c**; $\frac{1}{4}$ lb. **29c**; $\frac{1}{2}$ lb. **47c**; 1 lb. and over **79c** per lb.

1995. China Rose

Late fall or early winter radish. Early frosts improve spicy flavor. Scarlet skin; sweet, crispy, white flesh. Postpaid, oversize pkt. ($\frac{1}{4}$ oz.) **5c**; 1 oz. **12c**; $\frac{1}{4}$ lb. **29c**; $\frac{1}{2}$ lb. **47c**; 1 lb. and over **79c** per lb.

New Beefsteak

Weights 1 lb. 3 oz.

I am sending a tomato from one of my Bush Beefsteak vines. It weighed over 1 lb. 3 ozs. when I picked it. I have many nearly as large.

B. J. L., Dempster, S. Dak.

RHUBARB

2000. Rhubarb

Red and Mixed Hybrids. Easily Grown
Seed of these early, high sugar and red hybrids will surprise you in their productiveness. Bred for low acid. Delivered, oversize pkt. **7c.**

SALSIFY

2020. Mammoth Sandwich Islands

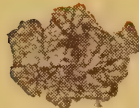

Excellent winter crop. This is the earliest salsify or oyster plant. Yields large firm roots for winter storage. Flavor suggestive of fried oysters. Postpaid, pkt. ($\frac{1}{2}$ oz.) **7c;** 1 oz. **26c.**

SPINACH

1 oz. seeds 100 ft. of drill.

2050. America

Long Standing (New)

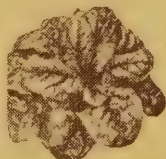

An improvement on Bloomsdale. Deeper, richer greener leaves. Leaves out longer and is more resistant to seed bolting than the older sorts.

Postpaid—Oversize pkt. **7c;** 1 oz. **21c;** $\frac{1}{4}$ lb. **49c;** $\frac{1}{2}$ lb. **89c.**

2060. King of Denmark.

Quality is tops; large, rich green, comparatively smooth, dense leaves. Stands summer heat unsurprisingly well. Postpaid oversize pkt. ($\frac{1}{4}$ oz.) **5c;** 1 oz. **14c;** $\frac{1}{4}$ lb. **36c;** $\frac{1}{2}$ lb. **49c;** 1 lb. and over **79c.**

2070. Nobel

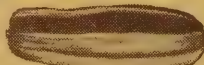

Outstanding variety, stands extreme heat of western plains. Less seed bolting than any other variety. Our strain has thick, smooth, dark green leaves. Quality excellent. Postpaid oversize pkt. ($\frac{1}{4}$ oz.) **5c;** 1 oz. **14c;** $\frac{1}{4}$ lb. **36c;** $\frac{1}{2}$ lb. **49c;** 1 lb. and over **79c.**

SQUASH—Summer

2100. Black Bush Zucchini

Best summer squash. Compact bush, black skin fruits are best used 4-5" long. Sliced and prepared like asparagus. Quality excellent. Postpaid oversize pkt. ($\frac{1}{4}$ oz.) **6c;** 1 oz. **23c;** $\frac{1}{4}$ lb. **83c;** $\frac{1}{2}$ lb. **\$1.39;** 1 lb. and over **\$2.40**

SQUASH—Fall

2115 Bush Uconn (New)

Just released by Connecticut. $1\frac{1}{2}$ to 2 lbs. each of acorn size. Excellent keeper. Compact bushy growth 2-2 $\frac{1}{2}$ ft. across makes this best home garden squash. Postpaid oversize pkt. ($\frac{1}{4}$ oz.) **6c;** 1 oz. **23c;** $\frac{1}{4}$ lb. **83c;** $\frac{1}{2}$ lb. **\$1.39;** 1 lb. **\$2.40.**

2125. Buttercup

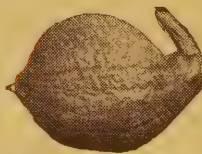

Excellent for home or market. Very thick, fine orange flesh. Dry, mealy; excellent flavor. First class keeper. Postpaid—oversize pkt. ($\frac{1}{4}$ oz.) **7c;** 1 oz. **27c;** $\frac{1}{4}$ lb. **98c.**

2126. Baby Blue (Bush Type)

Here's outstanding quality of flavor, texture, to make squash one of your favorites. This new origination of Dr. A. F. Yeager—now of the Univ. of New Hampshire, combines the quality of Hubbard with the earliness and small size of Butte cup. Early, firm, thin skinned, compact. Postpaid—Oversize pkt. ($\frac{1}{4}$ oz.) **11c.**

2140. Green Hubbard

A standard flesh golden orange, tender and free from fibre. Large fruits on vigorous vines. Reliable winter keeper. Postpaid oversize pkt. ($\frac{1}{4}$ oz.) **6c;** 1 oz. **23c;** $\frac{1}{4}$ lb. **83c;** $\frac{1}{2}$ lb. **\$1.39;** 1 lb. and over **\$2.40.**

VEGETABLE MARROW

2220. White Bush (New)

Short, bushy growth; ideal for small garden. Heavy yielder of tender white fruits. Small 5" fruits, ready to use when Bush Beans usable. Postpaid oversize pkt. ($\frac{1}{4}$ oz.) **6c;** 1 oz. **23c;** $\frac{1}{4}$ lb. **83c;** $\frac{1}{2}$ lb. **\$1.39;** 1 lb. and over **\$2.40.**

Vegetable Spaghetti

A real treat—this is not a freak but a delicious vegetable. Can be used when small like vegetable marrow, or can be baked in the shell when mature for the delicious vegetable-like spaghetti exclusive taste. Delivered, oversize pkt. **6c.**

SUNFLOWERS

2275. T & T Early Dwarf

Here's the best yielding early sunflower for the North. Grows 4 to 5 feet tall; highest oil producing Sunflower; exceptionally high yielding and early maturing. Meats very tasty—oil excellent for cooking purpose. Postpaid oversize pkt. (1 oz.) **5c;** $\frac{1}{4}$ lb. **14c;** $\frac{1}{2}$ lb. **24c;** 1 lb. **45c.**

Here's tons and tons of T & T Early Bush Beefsteak grown on the T & T seed farm in southern Manitoba. It took 450 lbs. of these tomatoes to produce one pound of this T & T Northern grown seed.

TOMATOES—Bush

Amazing strides are being made in the early bush tomatoes. Marked increases in size—quality—earliness of the new **T & T BUSH BEEFSTEAK—METEOR—MUSTANG HYBRID** promise that they will very quickly replace our old standbys **CHATHAM** and **BOUNTY**. Seed bush tomatoes 6 weeks before transplanting out.

2305. Hybrid Mustang (New)

Carefully hand crossed seed. A true first generation hybrid Bush Tomato. As in corn the Hybrid has extra vigorous uniformity. Mustang is the best Bush Hybrid ever developed for Northern gardens. As early as Chatham it outyields it by as much as 50% in carefully replicated tests. Fruit is deep, of

the Meteor Type very meaty, and first fruits have very few seeds. Special pkt.—25 hand crossed seeds, postpaid **19c**.

2308. T & T Early Bush Beefsteak (New)

Never in our experience have we released a new variety with such outstanding response from Coast-to-Coast. See Order Form for a few of these enthusiastic reports. Here is world's largest bush tomato. It traces back to Bounty lines, developed by Professor Yager at N. Dakota. Early as Chatham, heavy low growing plants. Tremendous yield of meaty solid fruits up to 1-1½ lbs. each. Postpaid pkt. (250 seeds) **12c**; 3 pkts **33c**. ½ oz. **98c**;

2315. Meteor (New)

Released by us last year, this orig. from Morden Exp. Farm, was an instant success right across Canada. Ripening a heavier crop as early or earlier than Chatham. Its deeper extra slicer fruits are blossom end rot resistant under drought. Smooth bright red easily picked fruits. It's certain to replace the older sorts. **SEED SCARCE**. Postpaid pkt. (250 seeds) **9c**. 3 pkts. **25c**; ½ oz. **69c**.

TOMATOES—Bush—Cont'd

2320. Farthest North

Earliest tomato. Fruits ripen 4 to 5 weeks after transplanting. Bushy plants loaded with 100's of golf-ball sized fruits. Excellent flavor for table or juicing. Postpaid, oversize pkt. (250 seeds) **6c**; 3 for **15c**; ½ oz. **33c**; 1 oz. **58c**.

2335. Early Chatham Select No. 8

Selected early larger strain of this most widely grown bush Tomato. Ripens 10 days after Farthest North. Compact heavier yielder. 2½" lively red, deep bodied fruits. Tops for juices. Postpaid, oversize pkt. (250 seeds) **6c**; 3 for **15c**;

½-oz. **33c**; 1 oz. **58c**.

2360. Bounty Select Strain

Has been most popular of larger fruited bush tomatoes. 3½ in. fruits ripening bright red a week after Chatham. Vigorous stalky plants. Heavy cropper. Postpaid, oversize pkt. (250 seeds) **6c**; 3 for **15c**; ½ oz. **33c**; 1 oz. **58c**.

2385. Morden Yellow

A real novelty. Large smooth yellow fruits on bush plant. Same season as Bounty. Best yellow for north. Postpaid, oversize pkt. (1/16 oz.) **8c**.

TOMATOES—Staking

2410. Stokesdale No. 4

Originators stock. Has done best on prairies of all staking sorts. Earliana season. Fruits deep bodied, deep red. A heavy yielder of excellent quality. Can be grown on Southern half of prairies. Postpaid, oversize pkt. (250 seeds) **9c**.

2420. Carleton

A new staker just released by Dom. Exp. Farm, Ottawa. Has done very well in Eastern Canada. Deep red, fleshy type. Earliana season. Top yield. High quality fruits. Postpaid, oversize pkt. (250 seeds) **9c**.

7 Years Success

T & T Nursery Stock

For seven years I have bought T & T seeds and raised gardens with success even when others complained of failures. My lettuce never bolted to seed. The nursery stock I've ordered in the seven years has more than satisfied me. I will always continue to use T & T.

Mr. H. S. A., Sylvan Lake, Alta.

TURNIPS—Summer

Use only when small (2-2½" across) for the spring and early summer table.

1 oz. sows 100 ft. of row.

2500. Purple Top

Earliest turnip for northern areas—fast grower. Crisp, white flesh, pleasing flavor. Postpaid oversize pkt. (¼ oz.) 6c; 1 oz. 16c; ¼ lb. 35c; ½ lb. 59c; 1 lb. \$1.09.

2510. Golden Ball

Finest, yellow fleshed type. Roots round, golden; flesh sweet-crisp and fine textured. Heavy yielder. Ready a week after No. 2500. Postpaid oversize pkt. (¼ oz.) 6c; 1 oz. 16c; ¼ lb. 35c; ½ lb. 59c; 1 lb. \$1.09.

TURNIPS—Rutabaga

The rutabaga or swedes are the large fall and winter storage types. Store like potatoes.

2515. Alta. Sweet (New)

An exclusive T & T introduction developed by Mr. Simonette, Edmonton, the double Pstunia breeder. Obtained from a cross with the sweet summer turnips. This Rutabaga is a real break, the first real improvement in years. Sweeter, more tender less woody flesh; mark this heavy yielder. Seed scarce. Postpaid, oversize pkt. (300 seeds) 9c.

2520. Laurentian

Consistent yielding rutabaga. Market gardeners' favorite. Uniform—excellent quality—stores well. Postpaid, oversize pkt. (¼ oz.) 6c; 1 oz. 16c; ¼ lb. 35c; ½ lb. 59c; 1 lb. \$1.09.

2540. Canadian Gem

Earliest and best rutabaga for northern districts. Roots round to oval; sweet and pleasantly flavored. Harvest in late fall; excellent keeper. Postpaid oversize pkt. (¼ oz.) 6c; 1 oz. 16c; ¼ lb. 35c; ½ lb. 59c; 1 lb. \$1.09c.

Eighteen

POTATO EYES

T & T EYES ARE LARGEST—HEALTHIEST—BIGGEST YIELDERS

**IMPROVE YOUR POTATOES
WITH T & T EYES**

9500. CHEROKEE

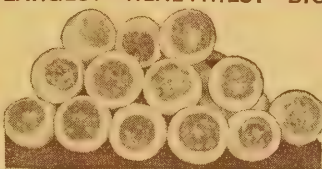

New release by U.S.D.A. expected to become highly popular account of not only a good eating variety but resistant to scab and blight. Oval, white, very high yielder. Be sure to try this. Postpaid—Special, 25 eyes, **59c**; 50 eyes, **99c**; 100 eyes, **\$1.89**; 200 eyes, **\$3.39**; 500 eyes, **\$7.69**.

9515. Kennebec (New)

New U.S.D.A. seedling—outstanding yielder. Oval white with very shallow eyes. Vigorous grower. Prices same as Canus.

9502. Minnesota No. 23.

Developed by Dr. Krantz of the Univ. of Minn. who believes that it will prove about a week earlier than Warba. This shallow eyed variety should become popular in the Far North as well as in high altitudes and for gardeners who wish an extremely early variety. Special 25 eyes, **69c**; 50 eyes, **\$1.19**; 100 eyes, **\$1.98**.

In Canada Certified Eyes have done more to improve the quality of Home Grown Potatoes than any other factor.

T & T Eyes are center cut with plenty of feeder flesh. Yield as heavy as potato pieces.

9501.

U.S.D.A. No. 63-16

The very latest—not even named yet. A long oval white variety—medium maturity, high in starch. Excellent yielder. We want our customers to try this and then report to us so that information can be sent to U.S.D.A. potato breeders. We were very much pleased ourselves with this variety in 1951.

Postpaid Special—25 eyes **69c**; 50 eyes **\$1.04**; 100 eyes **\$1.98**.

9510. Canus (New)

★ New heavy cropper has caught on extremely well across the west, outperforming old standard varieties. Broad deep green leaves, heavy foliage and root growth. Start now with this heavy yielder, as early as Cobbler—it's eyes are shallower. Makes best chips of all—absorbs least grease of any. Postpaid—Special, 25 eyes, **59c**; 50 eyes, **99c**; 100 eyes, **\$1.89**; 200 eyes, **\$3.39**; 500 eyes **\$7.69**.

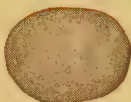

SPECIAL DELIVERED PRICES

Delivered to you at planting time

Order with your seed on Order Form.
Each variety unless otherwise quoted.

9520. Columbia Russet

★ Heavy russet skin makes it resistant to bruising and scab. Comes a week to 10 days earlier than Gems. Stands up better, doesn't come knobby under alternating wet and dry conditions. Quality as good as Gems.

9525. Netted Gems

Original standard main crop russet potato. Does best on sandier well-drained soils with ample even rain or irrigation. Quality / superb for baking. Tough skin like 9520.

9530. Pontiac

Drought resistance is what's making Pontiac catch on. It really "digs" for the moisture. Excellent quality. It's red skinned but shallower eyed than Triumphs. It's tough skin at digging time makes it bruise resistant and tops for storage.

25 Eyes	\$.49	200 Eyes	\$ 3.09
50 Eyes	.89	500 Eyes	6.95
100 Eyes	1.69	1000 Eyes	12.95

9535. Warba

Earliest potatoes grown. Developed by Dr. Krantz, Univ. of Minn. Sure cropper in short season dry districts. Best farm garden variety, always matures a crop. Excellent flavor. Good keeper.

9540. Irish Cobbler

Old favorite for home and market garden. Quality always dependable. Mealy fine flavored, excellent for baking. White skin and flesh. Light purple flowers.

9545. Early Ohio

If this is a favorite of yours here is some new true, disease-free stock. In recent years, newer, smoother, more disease-resistant types are replacing this old favorite. Oval pink tubers are table favorites.

9550 Bliss Triumph

This earliest of the main croppers is gaining more friends in the Northwest every year. Outstanding yields of red-skinned, good quality, oval tubers; excellent keepers, smooth, consistently uniform.

D6. SOLID MAHOGANY—Name is its color but the smooth finish, heavy texture, fine branching, give this Iris top honors in deep red class. Each **\$1.00**; 3 for **\$2.50**.

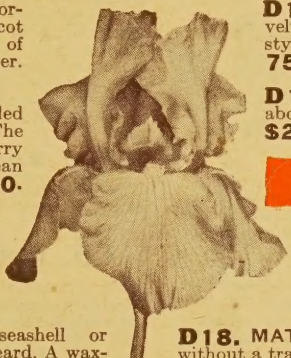

D7. SPINDRIFT — Delicate seashell or salmon pink with deep orange beard. A wax-like substance holds flowers without fading in the hottest sun. Each **\$1.00**; 3 for **\$2.50**.

D8.OLA KALA—Richly deep yellow, almost almost on the orange side. A flaring lightly ruffled flower on tall stems stands the weather well. Each **\$1.00**; 3 for **\$2.50**.

D9. BLUE SHIMMER — This blue (Plicata type, illustrated at the base of page) has the clearest tone of blue, polka dotted and peppered on a crisp ivory white. Distinctive and fragrant. Each **\$1.00**; 3 for **\$2.50**.

D10 MISTY GOLD—An entrancing and delicate flower. A crinkled lemon-toned Iris with gold braiding on petal edges. Sculptured like broad petals. Each **\$1.00**; 3 for **\$2.50**.

D11. SABLE — Richest deep black violet. Fine in every way, a gratifying grower. This large Iris—so deep in color deserves its popularity. Each **\$1.00**; 3 for **\$2.50**.

To bring your garden up to date We're importing these finest of new Iris from America's leading Iris Breeder and grower. These excellently grown top size plants move best after blooming, SO THEY WILL BE SHIPPED POST-PAID TO YOU AT THE END OF JULY.

CHOICE IRIS

D12. MINNIE COLQUITT — A striking massive plicata. Heart of each petal is pure white—with broad stitching of wine purple—leading to a solid edge. Each **75c**; 3 for **\$2.00**.

D13. HARRIET THOREAU—Orchid mauvy pink, self color with great style. Slightly waved blooms. Each **75c**; 3 for **\$2.00**.

D14. SHARKSKIN — A silken finished pure white. A leather-like substance, large size and purity of color rank this among the finest. Each **65c**; 3 for **\$1.75**.

D15. SPUN GOLD—Gleaming velvety golden yellow. Perfection of form style and color enhance its purity. Each **75c**; 3 for **\$2.00**.

D16. COLLECTION — One each of above 4 choice Iris. Four roots labelled, **\$2.50**.

CHOICE IRIS

D17. MELANIE—Lovely stately shimmering orchid pink close to true pink. Tall, ideally branched. Fine size and substance. Each **50c**; 3 for **\$1.30**.

D18. MATTERHORN—Sparkling pure white without a trace of foreign color. A true self-color of beautiful form, generous size. Each **50c**; 3 for **\$1.30**.

D19. CITY OF LINCOLN—Rich golden standards with falls or base petals fiery red. The boldest color contrast to be found in Iris. Each **50c**; 3 for **\$1.30**.

D20. STARDOM—Rapturous salmon shading to apricot buff—like glowing coppery salmon. Orange beards extremely vigorous. Each **50c**; 3 for **\$1.30**.

D21. WABASH—Fresh toned. Snowy white standards, ultramarine blue falls or base petals. The clear contrast is a standout. Each **50c**; 3 for **\$1.30**.

D22. KLONDYKE GOLD—Enormous rounded flowers of rich gold. The large blooms have good finish and substance. Each **50c**; 3 for **\$1.30**.

D23. COLLECTION—One each of above 6. Choice Iris. 6 roots labelled **\$2.60**.

New Varieties & Garden Methods

E1. Cavalier Tomato

A new bush type variety developed by the Department of Horticulture, North Dakota Agricultural Experimental Station as a selection from the cross Bounty X Valiant. The fruit is globe shaped, averages about six ounces per fruit, is smooth and normally quite free from cracks. The ripe fruit is darker red than Bounty and Victor. Flesh, firm and meaty. Being offered for the first time in 1953. Postpaid—Pkt. (250) seeds **9c**; 3 pkts. **25c** ½ oz. **69c**.

E2. Bush Beefsteak Tomato

Here is world's largest bush tomato. Hundreds of enthusiastic reports from 1952 growers. It traces back to Bounty lines, developed by Professor Yaeger at N. Dakota. Early as Chatham. Heavy low growing plants. Tremendous yield of meaty solid fruits up to 1-1½ lbs. each. Postpaid—Pkt. (250 seeds) **12c**; 3 pkts. **33c**; ½ oz. **98c**.

E3. Miniature Sweet Corn

An extremely early dwarf sweet corn with high sugar, excellent quality ears. Smut resistant, high yielding; good freezing corn. 102-11C—¼ lb. **29c**; ½ lb. **48c**; 1 lb. **84c**.

E4. WADE GREEN BEAN

1952 Gold Medal Winner All American trials. This new variety was cataloged by us on an introductory basis last year. Comments from users were so enthusiastic that we are sure that it will become a leading variety. Postpaid—1 oz. pkt. **9c**; ¼ lb. **24c**; 1 lb. **58c**.

E5. Minnesota No. 23

Developed by Dr. Krantz of the Univ. of Minn. who believes that it will prove about a week earlier than Warba. This shallow eyed variety should become popular in the Far North as well as in high altitudes and for gardeners who wish an extremely early variety. We have been officially advised that this variety is to be named and released for 1954 planting. Get a head start in 1953. Eyes only—Postage Prepaid—25 eyes **69c**; 50 eyes **\$1.19**; 100 eyes **\$1.98**.

E6. U.S.D.A. No. 63-16

The very latest—not even named yet. A long oval white variety—medium maturity. High in starch. Excellent yielder. We want our customers to try this and then report to us. We were very much pleased ourselves with this variety. Postpaid Special—25 eyes **54c**; 50 eyes **\$1.04** 100 eyes **\$1.98**.

CUTWORM AND SLUG PELLETS

E7. Bug-Geta Pellets

Here's the latest and best method of controlling cutworms and slugs—scatter pellets near plants for sure death. Pellets contain Metalddehyde and Sodium Fluocilicate as poison with dehydrated apple bait. Postpaid—Pkt., (approx. 2000 pellets) **54c**.

FERTILIZERS

E8. Fertab Plant Pills

Peps up run-down house plants. Put one in every potted plant once a month, and you will be amazed. Delivered Price—Packet of 50 Pills—**15c**.

Thirty-eight

New Field-Crop Varieties

E11. Marine Flax

This new flax combines the early maturity of such varieties as Cheyenne with high disease resistance and good yield. This is the variety to get started with especially for later planting. Ask us for prices, stating number of bushels wanted.

E12. Mo. 0-205 Oats

A new stiff strawed early oat developed by the Missouri Experiment Station with the characteristic of high yield and unusually low percentage of hull. Yield reports from most of the late oat States place it at the top. The Iowa Experiment Station reports it highest yielding oat among the sixteen commonly grown varieties with which it was compared for the past five years. Seed of this variety is very scarce but we will quote you a reasonable price upon request, as long as our supply lasts.

E13. Lee Spring Wheat

SPRING WHEAT—LEE—New high yielding Spring wheat from University of Minn. Large kernel size high test weight, highly resistant to leaf rust and usual forms of stem rust. Official yield reports from many Experiment Stations show this a leader in yield. Just released and popular in both U.S. and Canada. Be first to grow this new variety in your community. Two bushel bags only. State cert.—per bushel—**\$3.00**.

E14. Andrew Oats

A very high yielder at many Experiment Stations State certified. 3 bus. bag—Per bushel—**\$1.75**.

E15. Improved Strain "SQUAW CORN"

This extremely early corn was grown by the Northern Agricultural Indian tribes as human food. The colorful ears with mixed red, blue, white, yellow and green kernels were also used for ceremonial purposes. The most dependable corn for earliest livestock feeding. Ears also commonly used for Harvest Festival and Thanksgiving decoration. Postpaid ¼ lb. pkt. **15c**; 1 lb. pkt. **39c**; Not prepaid per bushel **\$6.50**.

E16. Wireworm Seed Dust

Wireworm Seed Dust—25% Gama of B.H.C. Wireworms are general over most of prairies. They eat seed or young seedlings—looks like poor germination or root rot, especially on Peas, Beans, Corn and Beets. They eat roots and stunt plants—looks like drought. They split roots of Carrots, Beets, etc. Dust seed for certain control—Postpaid 1 oz. (treats 10-15 lbs. seed) **39c**. Ask for prices on larger quantities for use in control of wireworms in grains.

E17. Pre-Emergence Weed Control

Several new chemicals are proving effective for control of weeds in onions, sugar beets and various other vegetable and field crops. Ask us for quotations on recommended treatments both pre-emergence and post-emergence, in either small quantities or larger amounts.

Gladiolus

These 32 Glads are honestly the best varieties and best bulbs ever offered Northern gardeners. Bulb increase makes Glads a permanent investment. All T & T bulbs are hand picked, top quality, 1 1/4 in. in diameter or over. Specially wrapped and shipped separate in time for Spring. Detailed cultural guide with order. D.D.T. controls Thrip.
